

INSTINCTIVE ELK CALLING SEMINAR

presented by

Joel Turner

2X RMEF PROFESSIONAL WORLD ELK CALLING CHAMPION

About the Seminar:

Joel's hunting experience lies with smart public land bulls where consistent success requires great calling and strategy. His seminars will demonstrate what it takes to be successful calling in smart and stubborn public land bulls into bow range. He will divulge past mistakes and the mistakes he sees in the tactics of others. His seminars are unique because he incorporates mammal intuition and instinct into his calling and set ups. He will also expound on subjects such as hang ups, terrain use in calling, herd bull techniques, solo hunter techniques, instinct manipulation, stress concentration, bull fever, and call selection.
